I'm very interested in Art considering I have a drawing hobby to cope with it. The reason I chose art is because it's fun and I know a lot about. Not to mention my dream job is in field.

Cammy Mansfield 6B

Hey there! I'm very interested in Arts, due to my nerdy drawing hobby, I find this perfect for me to explain why I chose arts. If you've seen my draws before, you may agree, or disagree.

If you must know why I chose to pick this career...

I enjoy anything that involves certain types of "art", if archeology is one of those, I'd gladly pick it. I am a dinosaur fan too, which is why I think arts would be a nice option if I were to make dinosaur models, sculptures, and much more! I was inspired with drawing, and animating by some of the community's best artists, let alone the world famous artists.

JOSH HARRINGTON

I have always been interested in the art of photography. I love all types of art, i draw, paint and take a lot of photographs.

I draw because it soothes me. It makes me happy. I always thought of making it a career. But, sometimes they are just doodles in my sketch-book.

Why am I interested in this Career?
